BUILDING

The Japan lecture series is a long-term public programme that will bring some of the most relevant figures in contemporary Japanese architecture to the UTS School of Architecture, including Go Hasegawa, Onishimaki+Hyakudayuki, Junya Ishigami and Ryue Nishizawa. These events are part of an ongoing project of repositioning the school as a cultural hub for the Indo-Pacific area. The series acknowledges the geopolitical position of Australia by establishing further relationships with other centres of cultural production in the region. Curated by Guillermo Fernández-Abascal (GFA2) and Urtzi Grau (FKKA) with the generous support of the The Japan Foundation, Sydney.
